Hytrol Announces Addition of Chuck Waddle as Vice President of Business Development

(Jonesboro, AR) October 19, 2010 — Hytrol Conveyor Co., Inc. is pleased to announce the addition of Chuck Waddle as Vice President of Business Development. Chuck will be responsible for expanding Hytrol's brand awareness and capabilities through increased interaction with our Integration Partners and end users. He will help demonstrate to end users the benefits of choosing Hytrol and our Integration Network as their suppliers of choice. Providing the leadership in opening new markets, attracting strategic accounts, developing market segmentation, and creating ways to add value to our products and services will be a strong focus for Chuck and his team. Chuck will also establish strategic growth goals and objectives to further position Hytrol as a major force in the material handling industry.

Chuck has been in the material handling industry for over 30 years and has operated at the executive level the last 16 years. He has been employed with FKI Logistex, Mathews Conveyor, Crisplant and most recently with VanDerLande Industries.

About Hytrol Conveyor Company:

Hytrol is a major manufacturer of conveyors, conveying systems, and conveyor accessories. Since its beginnings in 1947, Hytrol has grown into one of the largest manufacturers of conveyors and conveying hardware in the world. Hytrol has over 725 employees and currently serves approximately 63 integration partners in the United States and 22 international partners, representing 13 countries making Hytrol truly one of the world leaders in the conveyor industry.
